From the Superintendent

This season has presented challenges in turf maintenance. Our fairways have suffered the most. It has been a result of many factors, from an overabundance of rain in June and July to the recent hot, humid weather pattern we have now. We also have had some mechanical issues with the irrigation system. That is in the process of getting repaired. The turf will recover as the cooler temps approach this fall. We do plan to aerify greens the day after Labor Day. It will be a small hole and will recover within two weeks. Please remember to use proper golf etiquette and take care of your course.

Enjoy the picture and think of being cool.

TENNIS

It's not too late to work on that tennis game. The Club's own Molly Abraham is ready to help anyone improve their game or learn the basics for the first time.

If you are interested in private lessons for your children or yourself, please give Molly a call.
